

EVOLUTION SERIES

Forge Your Own Path to Profitability

ML MARK ANDY

EVOLUTION SERIES

The Most Value-Driven Press of its Kind

Full Servo Flexo

Evolution Series is a simple-to-operate platform powered by proven Mark Andy engineering and technology, providing converters a scalable solution that meets their needs today with a path forward for future adaptability tomorrow.

The Performance You Need, Evolved

Scalability

Manufactured with every converter in mind, only choose the options you need today, with a profitable path forward tomorrow through modularity.

Quality

With precise independent inking and impression, robust die cutting options and precision tension control, high-quality labels and film production are guaranteed.

Profitability

Demonstrated registration performance, tangible waste savings and less material ensures a substantial impact to your bottom line.

Productivity

Fast changeovers for print and die stations carry through to the Evolution Series, reducing downtime and increasing daily capacity limits.

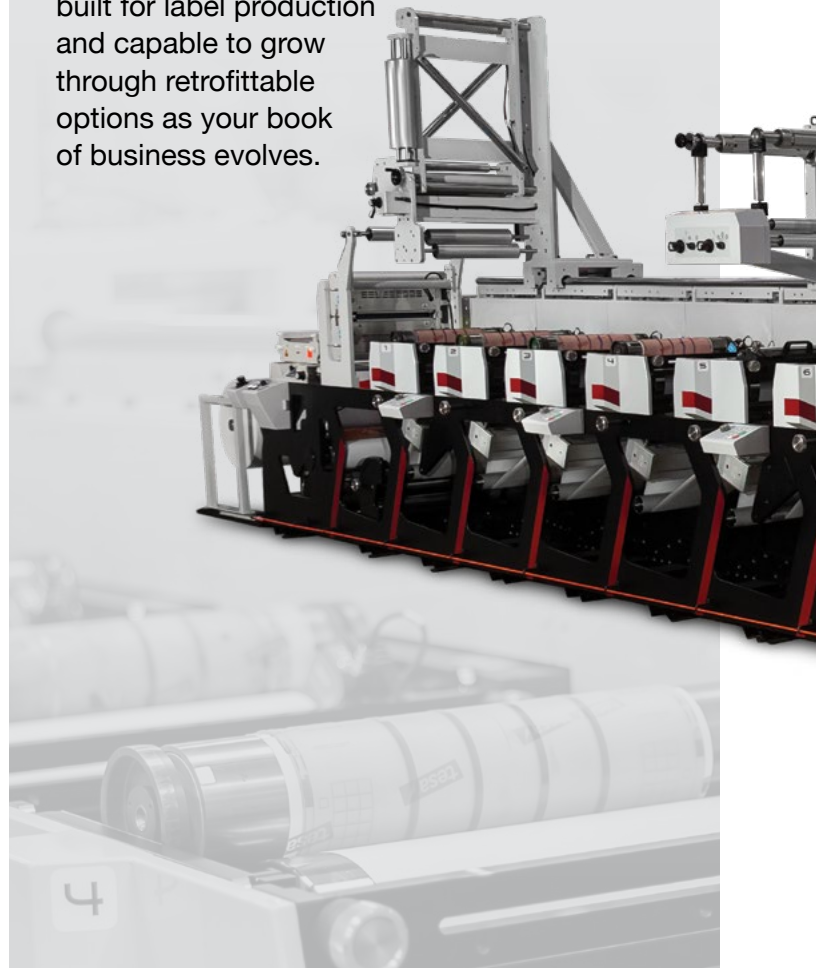

Support

With the largest global service team in the industry, you are supported by Mark Andy to succeed. Beyond technical assistance, we offer our partners business development consulting, application expertise, and all the parts and consumables needed from a true Total Solutions Partner.

Scalable for Your Business Today and Tomorrow

The Mark Andy Evolution Series is unique in design due to its versatility in scalability. Just as its name suggests, this press is engineered with evolution in mind, built for label production and capable to grow through retrofittable options as your book of business evolves.
