

TECH AXXIS XL PLUS

DIGITAL LABEL FINISHER

The iTech Axxis XL Plus Digital Label Finisher by Allen Datagraph Systems Inc. (ADSI) is a complete, affordable digital finishing solution that laminates, cuts without dies, strips, slits, and re-winds your labels.

The iTech AXXIS XL Plus digital label finisher brings high-end performance and productivity to narrow web. A simple, smooth, transport mechanism, allows finishing speeds of up to 20 feet per minute. Its large infeed and rewind capacity coupled with quick setup capacity is perfect for today's short run environment.

The iTech Axxis XL Plus digital label finisher uses cutting edge technology that can cut any die shape on the fly. A simple Adobe Illustrator plugin sends a digital die directly to the finisher. This gives the user unsurpassed flexibility in label design.

Additional features are continuous cutting to provide a smooth slit before the rewind and larger 13" input and output roll capabilities for longer unattended operation. Automatic tensioning further reduces operator intervention.

Like all of ADSI's digital label finishers, the iTech AXXIS XL Plus uses SMARTMark Optical Registration technology to assure precise label reproduction, where cuts are accurately registered to the artwork. The computer-driven cutting technology is capable of cutting multiple depths within the same cut file, allowing for perforations or multi-layer applications.

The iTech AXXIS XL Plus digital label finisher is a perfect companion to a variety of narrow-web digital output devices, including ADSI's SPECTRUM and CYPHER digital label printers. AXXIS XL Plus is another affordable digital production tool, that allows you to respond to the increasing demand for high quality, short run, custom labels.

Contour Cutting	Full HPGL vector cutting compatible with SMARTMark opto-electrical line sensor
Speed	Up to 20 feet/min 6.1 meters/min
Web Width	4 - 8.5 inches 10 - 21.5 cm
Max Frame Length	22 inches 55 cm
Max Input Roll Diameter	13 inches 33.02 cm
Max Output Roll Diameter	13 inches 33.02 cm
Cutting Technology	Pivoting carbide tip - 30, 45 & 60 degree
User Interface	Touch panel display
Test Cut Function	Yes
Warranty	Limited liability 1 year

Dimensions

Height	60 inches 153 cm
Width	39 inches 100 cm
Depth	25 inches 64 cm

Weight	300 Lbs. 136 Kilograms
Power Requirements	500 watts 100-132 VAC 47-63 Hz or 180-240 VAC 47-63 Hz
Network Connectivity	Ethernet or USB 2.0
Cutter Management Tools	Allen Direct-Cut
